

Personal Recording with Echo360

- 1) Open web browser to echo360.org and login with LinkBlue
- 2) In the top right corner, click the settings wheel and select 'Downloads'

and then choose the correct download for your computer

Downloads

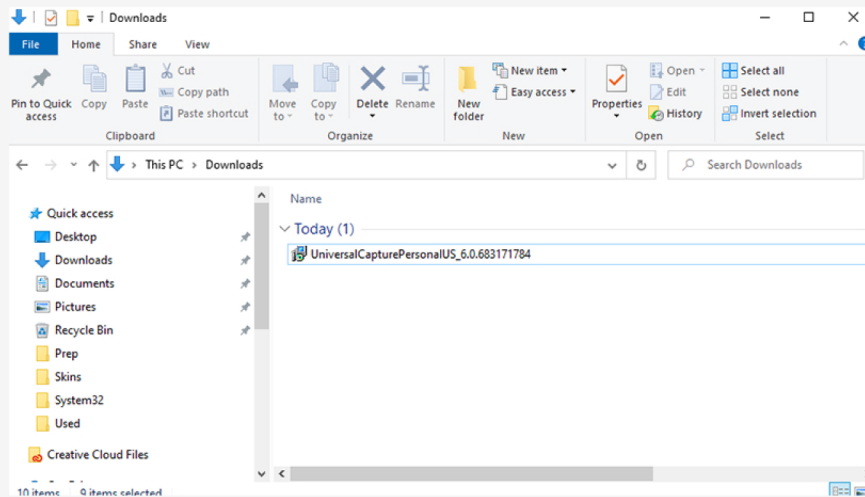

Universal Capture: Personal ?

Echo360 Universal Capture is the simplest video application for education that provides identical capabilities, and a consistent user experience across Mac and PC.

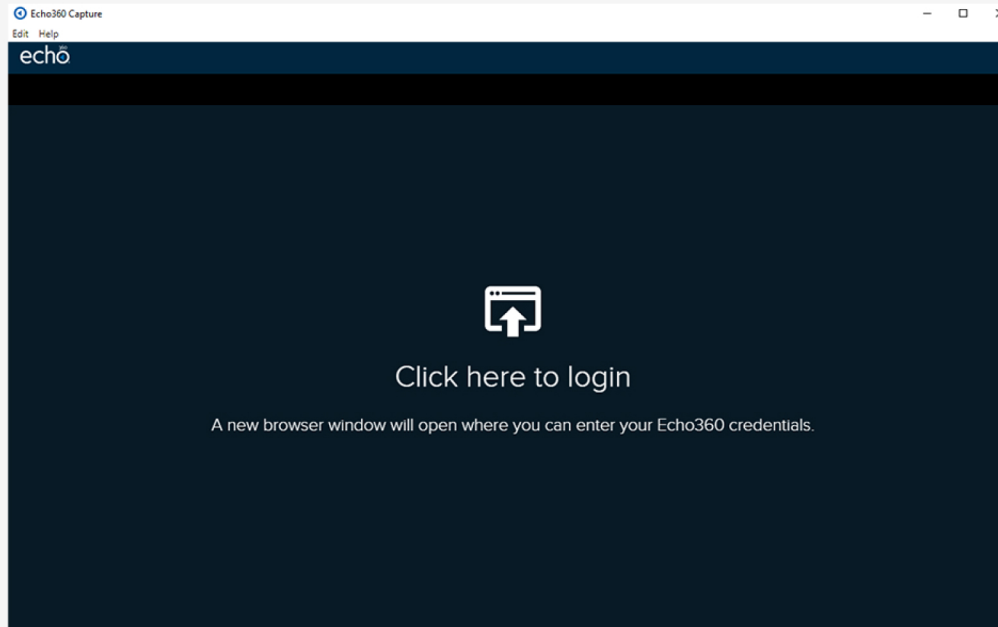

Personal mode is a stand-alone version of the Universal Capture desktop application. Recordings are created on an ad hoc basis and can be published to a section or library by default. Any combination of video, desktop, and audio can be recorded.

version v6.0.683171784 | version v6.0.683171784

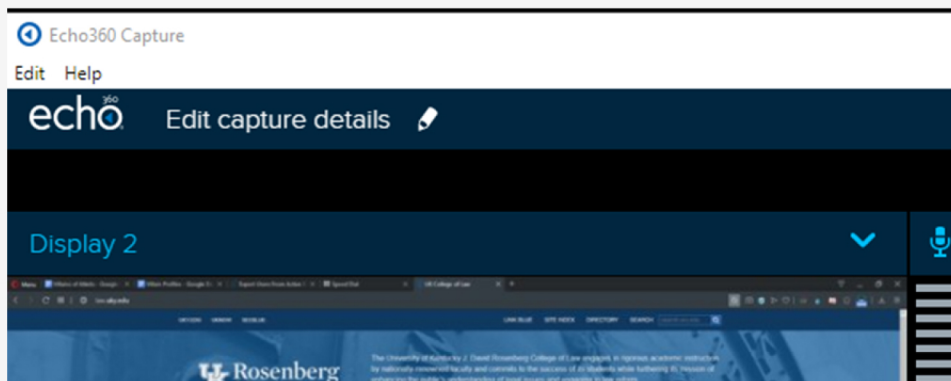

3) Open the UniversalCapturePersonal file in your downloads folder and install the software

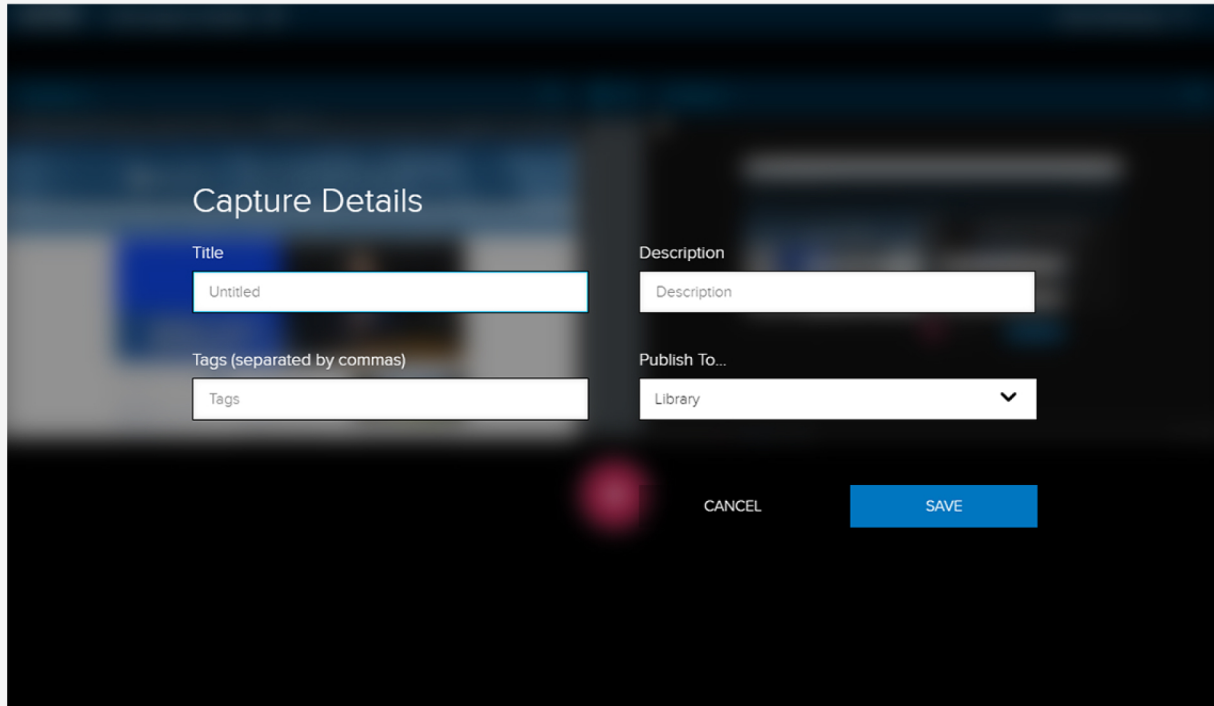

4) Open Echo360 Universal Capture and click the screen to login

5) Click edit capture details in the top left corner before recording

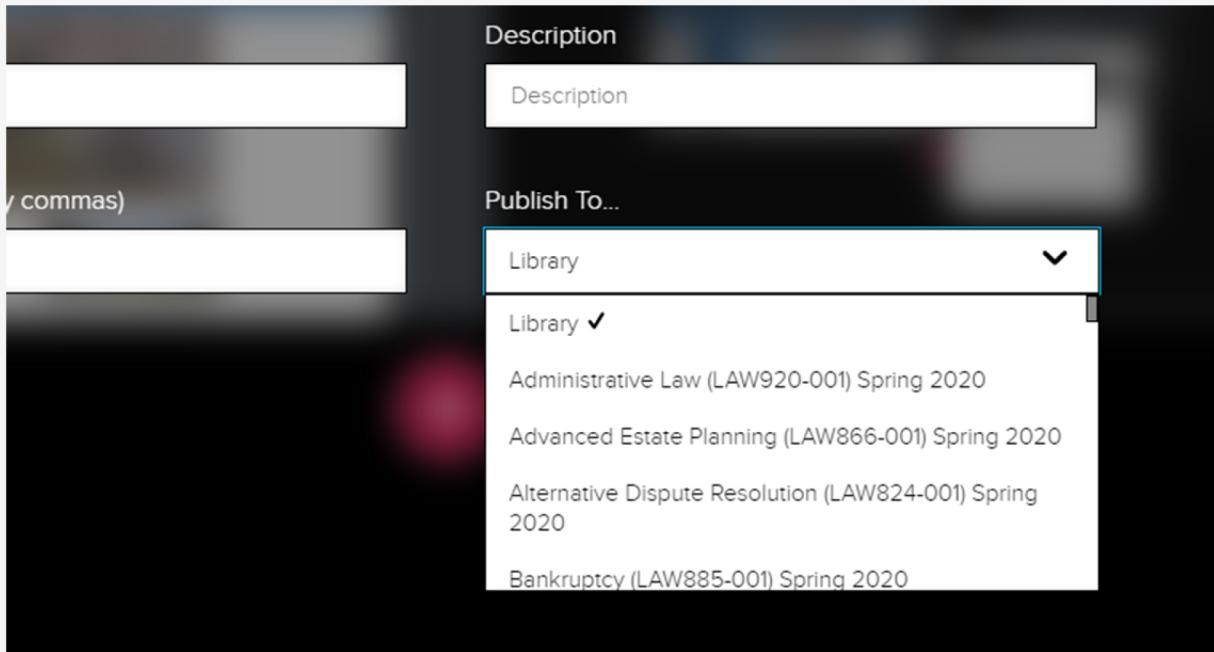

6) Fill in the details of your recording and then in the bottom right select the class and section the recording should be assigned to

The screenshot shows a 'Capture Details' form with the following fields:

- Title:** A text input field containing 'Untitled'.
- Description:** A text input field containing 'Description'.
- Tags (separated by commas):** A text input field containing 'Tags'.
- Publish To...:** A dropdown menu with 'Library' selected.

At the bottom right, there are two buttons: 'CANCEL' and 'SAVE'.

This close-up shows the 'Publish To...' dropdown menu expanded. The menu items are:

- Library ✓
- Administrative Law (LAW920-001) Spring 2020
- Advanced Estate Planning (LAW866-001) Spring 2020
- Alternative Dispute Resolution (LAW824-001) Spring 2020
- Bankruptcy (LAW885-001) Spring 2020

7) Save. Start your recording. Press the stop button to end, recording will upload to the Echo section of your course on Canvas.
